

Contents of Volume 114

(Special Issue: A collection of papers presented at the workshop "Bubble and Drop 95" in May 1995, held in Empoli, Italy)

<i>Preface</i>	vii
Differential geometric theory of capillarity J. Gaydos (Ottawa, Ont., Canada)	1
A software-driven apparatus designed for measuring geometrical and physical properties of a large bubble formed at a capillary tip G. Loglio, U. Tesei, P. Pandolfini and R. Cini (Florence, Italy)	23
Systematic effects of bubble volume on the surface tension measured by pendant bubble profiles S.-Y. Lin, W.-J. Wang, L.-W. Lin and L.-J. Chen (Taipei, Taiwan)	31
An oscillating bubble technique to determine surfactant mass transfer kinetics D.O. Johnson and K.J. Stebe (Baltimore, M.D., USA)	41
A new oscillating bubble technique for measuring surface dilational properties H. Fruhner (Potsdam, Germany) and K. Wantke (Berlin-Adlershof, Germany)	53
Hydrodynamic processes in dynamic bubble pressure experiments. 1. A general analysis S.S. Dukhin (Kiev, Ukraine), V.B. Fainerman (Berlin-Adlershof, Germany/Donetsk, Ukraine) and R. Miller (Berlin-Adlershof, Germany)	61
The instrumental engineering of a polymer fibre drop analyser for both quantitative and qualitative analysis with special reference to fingerprinting liquids N.D. McMillan, P. Davern, V. Lawlor, M. Baker, K. Thompson, J. Hanrahan, M. Davis, J. Harkin (Carlow, Ireland), M. Bree (Berlin-Adlershof, Germany), P. Goossens (Letchworth, UK), S. Smith, D. Barratt, R. Corden (Dublin, Ireland), D.G.E. McMillan (Belfast, UK) and D. Lane (Dublin, Ireland)	75
Dynamic surface tension responses to surface area change of mixed solutions of a protein and small or medium-sized organic molecules P. Chen, Z. Policova, S.S. Susnar, C.R. Pace-Asciak, P.M. Demin and A.W. Neumann (Toronto, Ont., Canada)	99
Characterisation of phospholipid layers at liquid interfaces. 1. Dynamics of adsorption of phospholipids at the chloroform/water interface J. Li, R. Miller and H. Möhwald (Berlin-Adlershof, Germany)	113
Characterisation of phospholipid layers at liquid interfaces. 2. Comparison of isotherms of insoluble and soluble films of phospholipids at different fluid/water interfaces J. Li, R. Miller and H. Möhwald (Berlin-Adlershof, Germany)	123
Adsorption kinetics of soluble surfactants and the phase transition model. 1. Theoretical simulation S.-Y. Lin, R.-Y. Tsay and W.-B. Hwang (Taipei, Taiwan)	131
Adsorption kinetics of soluble surfactants and the phase transition model. 2. Experimental demonstration of 1-decanol S.-Y. Lin, W.-B. Hwang and T.-L. Lu (Taipei, Taiwan)	143
Spreading of chain-like liquid droplets on solids J. De Coninck (Mons, Belgium)	155

The direct study of oily soil removal from solid substrates in detergency B. Carroll (Bebington, UK)	161
The pulmonary surfactant system: biological functions, components, physicochemical properties and alterations during lung disease U. Pison, R. Herold (Berlin, Germany) and S. Schürch (Calgary, Alta., Canada)	165
Surface tension measurements with the pulsating bubble method C.-H. Chang, K.A. Coltharp, S.Y. Park and E.I. Franses (West Lafayette, IN, USA)	185
Dynamic surface tension and surface area elasticity of adsorbed pulmonary surfactant layers K. Lunkenheimer, K. Winsel (Berlin, Germany), H. Fruhner (Potsdam, Germany), J. Fang, K.-D. Wantke and K. Siegler (Berlin, Germany)	199
Assessment of pulmonary surfactant function using a captive-bubble surfactometer R. Herold, H. Bünger and U. Pison (Berlin, Germany)	211
Adsorption of soluble proteins to dilating surfaces G.A. van Aken and M.T.E. Merks (Ede, The Netherlands)	221
Enhancement of the stability of protein-based food foams using trivalent cations D.K. Sarker, P.J. Wilde and D.C. Clark (Norwich, UK)	227
Competitive adsorption of β -lactoglobulin and β -casein with Span 80 at the oil-water interface and the effects on emulsion behaviour M. Cornec, A.R. Mackie, P.J. Wilde and D.C. Clark (Norwich, UK)	237
Viscoelastic properties of triacylglycerol/water interfaces covered by proteins J. Benjamins (Vlaardingen, The Netherlands), A. Cagna (St Clement les Places, France) and E.H. Lucassen-Reynders (Vlaardingen, The Netherlands)	245
The adsorption of surface-active complexes between β -casein, β -lactoglobulin and ionic surfactants and their shear rheological behaviour R. Wüstneck, J. Krägel, R. Miller (Berlin-Adlershof, Germany), P.J. Wilde and D.C. Clark (Norwich, UK)	255
Comparison of the dilational behaviour of adsorbed milk proteins at the air-water and oil-water interfaces A. Williams and A. Prins (Wageningen, The Netherlands)	267
Characterisation of phospholipid layers at liquid interfaces. 3. Relaxation of spreading phospholipid monolayers under harmonic area changes G. Kretzschmar, J. Li, R. Miller, H. Motschmann and H. Möhwald (Berlin-Adlershof, Germany)	277
Study of monostearin films in the presence of electrolytes J.M. Rodríguez Patino and M. Ruíz Domínguez (Sevilla, Spain)	287
Application of 2D polymer film scaling theory to natural sea surface films S.J. Pogorzelski (Gdańsk, Poland)	297
A study of entrapped enzyme stability and substrate diffusion in a monoglyceride-based cubic liquid crystalline phase T. Nylander, C. Mattisson (Lund, Sweden), V. Razumas (Vilnius-MTP, Lithuania), Y. Mieziš and B. Håkansson (Lund, Sweden)	311
The relationship between surfactant structure and limiting values of surface tension, in aqueous gelatin solution, with particular regard to multilayer coating A.R. Pitt, S.D. Morley, N.J. Burbidge and E.L. Quickenden (Harrow, UK)	321
An ion-binding model for ionic surfactant adsorption at aqueous-fluid interfaces V.V. Kalinin and C.J. Radke (Berkeley, CA, USA)	337
A diffusion-based approach to mixed adsorption kinetics L. Liggieri, F. Ravera and A. Passerone (Genova, Italy)	351
Author Index	361
Subject Index	362
